

# UCSF Medical Center at Mission Bay

## Facts & Figures

On February 1, 2015, one of the nation's premier medical centers opened the doors of a new world-class facility.

UCSF Medical Center has opened three state-of-the-art hospitals at UCSF's Mission Bay campus, where top clinicians will join expert researchers to develop next-generation therapies and cures.

### Exceptional Features

- UCSF Medical Center at Mission Bay is green on the outside - literally - with 60,000 square feet of rooftop gardens and 100,000 square feet of ground landscaping.
- UCSF Medical Center at Mission Bay is among the greenest urban hospitals in the nation. On Jan. 28, it was awarded LEED (Leadership in Energy and Environmental Design) Gold Accreditation, one of the first hospitals in California to achieve this honor.
- A fleet of tireless robots works around the clock to remove and deliver food and linens, medications and lab specimens.
- A media platform is available to all inpatients, enabling them to order room service, Skype with coworkers and classmates, update social media accounts, pick from an expansive selection of movies and e-mail their clinical team.
- Patient-friendly imaging scan suites are tailored for both children and adults, enabling them to experience

a Golden Gate sunset or a trolley ride around San Francisco by controlling light, sound and visuals.

- Clean to the extreme. Smooth surfaces, minimal ledges and equipment mounted on the ceiling where it cannot be touched facilitate hygiene maintenance - a significant benefit for immunocompromised patients susceptible to infection.
- An onsite helipad will transport pregnant women, newborns, and children with serious complications from outlying hospitals to UCSF Medical Center at Mission Bay.

### Anticipated Numbers

- Outpatient surgeries for first year: 5,380
- Inpatient surgeries for first year: 4,274
- Births for first year: 2,600 to 2,700
- Outpatient visits for first year: 122,000, not including infusions
- Pediatric emergency room volumes: 30+ patient visits per day and 3 patients by ambulance
- Hospital staff at Mission Bay: Approximately 3,000 employees, as well as approximately 500 physicians
