Drivers of UCSF’s Growth

• Research Funding
  – Contract and grants from the National Institutes of Health more than doubled between 1997 and 2013 ($517 million in 2013)
  – More than any other public institution in the country, and second among all institutions nationwide

• Clinical Volume
  – Inpatient census increased 11% since 1997
  – Outpatient volume increased 93% since 1997

• Philanthropy
  – Significant driver of capital construction

• Proposed LRDP capacity accommodates projected growth through 2035

• Overall deceleration of growth is anticipated
Medical Center Plans

• **Mission Bay**
  – Open new specialty hospitals for children’s, women’s and cancer services in February 2015

• **Mount Zion**
  – Close inpatient services and repurpose as a major outpatient hub with diagnostic and treatment services

• **Parnassus Heights**
  – Build New Hospital Addition to replace inpatient functions in Moffitt Hospital by 2030; repurpose Moffitt for non-inpatient uses

• **Affiliations**
  – Children’s Hospital and Research Center Oakland, others
LRDP Planning Framework

• The LRDP guides physical development over a period of 15-20 years
  – Existing 1996 LRDP has planning horizon of 2012
  – Proposed 2014 LRDP has planning horizon of 2035

• The LRDP is informed by strategic and academic planning and projected space needs

• The LRDP is accompanied by an Environmental Impact Report (EIR)

• The Regents certify the EIR, and approve the LRDP and Major Amendments
Community Participation in the LRDP Process

- Seven community workshops held at Mission Bay, Parnassus Heights, Mission Center and Mount Zion to generate discussion and solicit feedback from neighbors on proposed physical options
- Information on UCSF’s proposals shared with the San Francisco Planning Commission, and successor to the San Francisco Redevelopment Agency
- UCSF’s Community Advisory Group (CAG) continues to meet throughout the LRDP process and beyond
- *Community Planning Principles* developed to inform communications with neighbors throughout LRDP implementation
- Community meetings to present the Draft LRDP on June 16 and 18, 2014; feedback on Draft LRDP accepted through September 30, 2014

2. Monitor the success of proposed loading and delivery improvements by measuring the number of vehicles making deliveries through key gateways every 2 years (starting 2016).

3. Prior to starting construction of the New Hospital Addition, complete the demolition of the Laboratory of Radiobiology, Medical Research 4, Surge, Woods, EHS, and LPPI buildings, and the conversion of 3 floors of UC Hall to housing.

4. Hold an annual community discussion, via the Community Advisory Group, on progress towards the space ceiling goal and efforts to manage transportation impacts.

5. Publicly communicate UCSF’s ongoing allocation of financial resources (via UCSF’s ten-year Capital Financial Plan) towards implementation of LRDP proposals.
