

UCSF Medical Center at Mission Bay: *By the Numbers*

UCSF Medical Center
at Mission Bay

Hospitals:

289-bed, **6**-story, **878,000**-square-foot hospital complex

634,000 gross square feet in the children's, women's and cancer hospitals

207,500 gross square feet in the UCSF Ron Conway Family Gateway Medical Building, which is focused on outpatient services

36,500 gross square feet in the energy center, the central energy plant for the hospitals

20 operating rooms, including 8 adult, 8 pediatric and 4 shared adult/pediatric, 600-700 square feet each

Intensive care nursery rooms - **31** singles and **13** doubles.

14 Intensive Care Unit rooms for adults

10 Pediatric Intensive Care Unit (PICU) rooms

12 Pediatric Cardiac Intensive Care Unit (PCICU) rooms

12 transitional PICU rooms

9 labor and delivery rooms

Outdoor Space:

4.3 acres of green space

- **100,000** square feet of ground landscaping, making UCSF Medical Center at Mission Bay one of the greenest urban hospitals in the U.S.
- **60,000** square feet of rooftop gardens on the third, fourth and fifth floors

99,000-square foot public plaza

1,049 parking spaces

- **422** surface spaces
- **627** spaces in **10**-level structure

Nuts and Bolts:

12,451 light fixtures, enough for 1,000 average-sized homes

6,221 light switches, enough for 320 average-sized homes

13,400 receptacles, enough for 540 average-sized homes

210 miles of conduit, enough to stretch along 3,360 San Francisco city blocks

1,125 miles of wire, enough to round the bases at AT&T Park 16,500 times. In 13 years of playing at this stadium, the San Francisco Giants have accumulated nearly 9,400 runs. The distance of their runs will equal the wire in this complex around 2022.

85 miles of piping, equivalent to 50 Golden Gate Bridges put together end-to-end

1,783,000 pounds of ductwork, equivalent to 300 Ford F250 trucks or 3 empty 747 airplanes

Over 2.2 million cubic feet per minute (CFM) of supply and exhaust fan air, enough capacity to fill approximately 10 Goodyear blimps in about one minute.

4,630 tons of cooling, enough to cool 1,000 average-sized homes

9,272 tons of steel, enough to build approximately 8,000 cars

5 million square feet of drywall, enough for more than 700 average-sized homes

1,069,665 cubic feet per minute (CFM) of air supply, enough capacity to fill an Olympic-sized swimming pool in five seconds

On February 1, 2015, one of the nation's premier medical centers opened the doors of a new world-class facility.

UCSF Medical Center has opened three state-of-the-art hospitals at UCSF's Mission Bay campus, where top clinicians have joined expert researchers to develop next-generation therapies and cures.

Year One:

5,380 anticipated outpatient surgeries

4,274 anticipated inpatient surgeries

2,600 - 2,700 anticipated births

122,000 anticipated outpatient visits, not including infusions

Anticipated pediatric emergency room volume includes **30+** patient visits per day and **3** patients by ambulance

April 2015

Opening Date: **February 1, 2015**
