Why a Public Realm Plan?

The Plan will identify and scope projects, provide concept designs and preliminary project costs to better inform funding decisions.

The Plan should reflect the project priorities of local residents, business operators, and neighborhood organizations.

The Plan will provide a platform for coordination between different government agencies, nonprofits, and neighborhood groups.

<tr>
<td>Objective 5.3</td>
<td>Create a network of green streets that connects open spaces and improves the walkability, aesthetics, and ecological sustainability of the neighborhood.</td>
</tr>
<tr>
<td>Policy 5.3.1</td>
<td>Redesign underutilized portions of streets as public open spaces, including widened sidewalks or medians, curb bulb-outs, “living streets” or green connector streets.</td>
</tr>
<tr>
<td>Policy 5.3.2</td>
<td>Maximize sidewalk landscaping, street trees and pedestrian scale street furnishing to the greatest extent feasible.</td>

Through a robust community engagement process, finalize a prioritized list of streetscape, open space, and other public realm projects.

Working with neighborhood residents, businesses, and property owners, produce conceptual design for the highest priority projects. Develop design strategies for the remaining projects.

Provide robust cost estimates for each of the projects identified in the plan.

Allocate public funds for projects based on the cost estimates. Schedule in the City's capital plan for implementation, coordinated with existing public and private projects.

**PROJECT SUMMARY:** The 22nd Street Green Connection Streetscape project area is from Illinois Street to Pennsylvania Avenue. The project proposes to enhance the public realm of the 22nd Street commercial corridor through tree and understory planting, new pedestrian lighting, replacement of sidewalk concrete where needed and installation of curb block treatments, new sidewalk standards, new painted crosswalks, and bike route markings (sharrows). In addition to the pedestrian and public realm improvements, the project will strengthen the connection for people cycling from the Illinois St bikeway to the 22nd St Caltrain station at Iowa Street. The 22nd Street Green Connection Streetscape project will coordinate with Public Works paving program’s repaving of 22nd Street.
