Do soda taxes work? Experts look to Mexico for answers

A new study by Kirsten Bibbins-Domingo, MD, PhD, finds that Mexico’s tax on sugar-sweetened beverages could prevent hundreds of thousands from developing diabetes and cardiovascular disease while also saving approximately $1 billion in direct health care costs over the next decade.

ICU - Intensive Cat Unit - Helping Patients Heal At UCSF

CBS Local | A lovable tuxedo cat named Duke Ellington Morris is making the rounds in UCSF Medical Center’s intensive care unit to comfort patients during stressful times.
