**UCSF In The News**

**Alcohol Abuse Linked to Higher Heart Risks, Study Says**

CNN | While moderate drinking can have some heart benefits, a new study led by cardiologist Gregory Marcus, MD, finds that excessive drinking increases the likelihood of suffering atrial fibrillation, heart attack or congestive heart failure.

**One Man’s Quest to Change the Way We Die**
The New York Times Magazine | Palliative care specialist D.J. Miller Jr., a triple amputee, used his own experience to pioneer a new model of palliative care at the nonprofit Zen Hospice Project.

**Campus Announcements**

**Support the ZSF/G Research Building:** Please take two minutes to email the San Francisco Board of Supervisors showing your support for an important new academic and research facility that will bring together nearly 600 UCSF clinicians, clinical researchers, staff, and trainees at ZSF/G. Learn how to take action »

**Call for Nominations:** It is time to celebrate your colleagues who have gone above and beyond their service to UCSF or in their management of staff. Nominate them by Feb. 8 for the Chancellor Award for Exceptional University Service or the Chancellor Award for Exceptional University Management. Submit your nominations »

**Construction at Parnassus to Resume:** Work will resume in 2017 on Clinical Sciences Building with demolition and construction. Read more about the project »

**Facebook Tech Collaboration:** UCSF has joined a multi-university agreement with Facebook’s Building 8 that will allow researchers to engage in joint tech projects without the usual red tape. Learn more about the research engagement »
